Current public metrics: 233 curated works; 210 catalogued software repositories (167 owned + 43 All); 835 Google Scholar citations, h-index 14, i10-index 16 as of 2026-11-01. GitHub inventory: 275 docxology + 47 All public repositories (216 primary, 106 forks).

## Summary

Multidisciplinary researcher and open-source builder working across social insect biology, Active Inference, cognitive security, computational frameworks, education, and art.

## Education (4)

**2019-2023** **Postdoctoral Fellow | University of California, Davis | Davis, CA, USA**

- Co-mentors: Prof. Brian Johnson (UC Davis) and Prof. Tim Linksvayer (Arizona State University).
- NSF Postdoctoral Fellowship in Biology, award DBI-2010290; official award dates 2020-10-01 to 2023-09-30.
- Genomics, epigenomics, transcriptomics, and behavior in eusocial insects, mainly ants and bees.
- Science research, mentoring, participation, service, and organizing events and communities online.

Source: NSF award DBI-2010290 https://api.nsf.gov/services/v1/awards/2010290.json | UC Davis https://www.ucdavis.edu/

**2014-2019** **PhD | Stanford University | Stanford, CA, USA**

- Advisor: Professor Deborah M. Gordon, Biology.
- Research, teaching, service, and coursework from Summer 2014 to Summer 2019.
- Thesis topics: ant ecology, collective behavior, brain gene expression, and neurometabolism.
- Stanford Graduate Fellow (Urbanek Family Fellowship), 2014-2017.
- Co-organizer of the Stanford Complexity Group, 2016-2019.
- Stanford Neuroscience NeuroChoice Grant for neurometabolism in ants, 2019, $25,000.
- Stanford Systems Biology Seed Grant for gene expression and behavior in ants, 2018, $25,000.
- Theodore Roosevelt Memorial Award, American Museum of Natural History, 2016, $2,500.
- Lewis and Clark Fund grant, American Philosophical Society, 2016, $4,000.
- NSF GRFP Honorable Mention, 2015 and 2016.

Source: Stanford dissertation https://purl.stanford.edu/pb813wm1484

**2010-2014** **BSc in Genetics | University of California, Davis | Davis, CA, USA**

- BSc in Genetics, University of California, Davis.

- Genetics Department Citation, Highest Honors, 2014; 3.74 GPA overall.

- Campus Community Service Silver Award, 2014.

- Stanley and Jacqueline Schilling Award for Service, 2014.

- Completed the Population Biology Graduate Group one-year base PhD curriculum, 2013.

- Co-founder of The Aggie Transcript, an undergraduate biology journal, 2014.

- Victoria Finnerty Undergraduate Travel Award, 2014.

- Elected member of Phi Beta Kappa, UC Davis Chapter, 2014.

- Co-organizer of the Chess Club at UC Davis, 2012-2014.

- Research Scholars Program in Insect Biology, 2011-2014.

- Provost's Undergraduate Fellowship for Drosophila research, 2011, $2,500.

Source: UC Davis https://www.ucdavis.edu/

**2006-2010** **High School | Crystal Springs Uplands School | Hillsborough, CA, USA**

- Crystal Springs Uplands School.

Source: Crystal Springs Uplands School https://www.crystal.org/

## Experience (16)

**2026-ongoing** **Del Norte Triplicate | Typographical Editor**

Community Organization

- Typographical editing for The Triplicate newspaper of Del Norte County and Crescent City.

Source: The Triplicate https://www.triplicate.com/

**2021-ongoing** **Active Inference Institute | Co-founder, Participant, Officer, President, Treasurer**

Community Organization

- Co-founded the Active Inference Institute; current President and Treasurer.

Source: All officers https://activeinference.institute/structure/officers/ | All https://activeinference.org/

**2019-2024** **Complexity Adventures | Co-founder, Facilitator, Participant, Organizer**

Community Organization

- Organized activities and community around learning and applying complexity science.

Source: Complexity Adventures profile https://www.complexityadventures.com/organizers/2

**2019-ongoing** **COGSEC | Researcher**

Community Organization

- Research facilitation and participation on initiatives related to cognitive security.

Source: COGSEC https://www.cogsec.org/

**2014-2019** **Stanford Complexity Group | Organizer, Participant**

Community Organization

- Organized the Stanford Complexity Group while it was active.

Source: Stanford https://www.stanford.edu/ | verification https://danielarifriedman.com/resume/verify.html

**2025-2026** **Stealth Startup | Operator**

Startup

- Systems modeling and related work to be public later.

Source: verification https://danielarifriedman.com/resume/verify.html

**2023-2024** **Stealth Startup | Co-founder, Operator**

Startup

- Stealth Active Inference startup.

Source: verification https://danielarifriedman.com/resume/verify.html

**2019-2023** **Remotor | Co-founder, Researcher**

Startup

- Education, online event planning, and consulting for remote teams.

Source: verification https://danielarifriedman.com/resume/verify.html

**2017-2019** **fm.analytics | Co-founder, Researcher**

Startup

- Predictive analytics and dashboard visualizations with Prof. Glenn Magerman at KU Leuven.

Source: verification https://danielarifriedman.com/resume/verify.html

**2017-2019** **Cryptoptera | Co-founder, Researcher**

Startup

- Three-person cryptocurrency research group.

Source: verification https://danielarifriedman.com/resume/verify.html

**2019-2023** **Johnson Lab / Linksvayer Lab | Mentor, Researcher**

Research

- Postdoctoral position during NSF fellowship with Brian Johnson at UC Davis and Tim Linksvayer at Arizona State University.

Source: Johnson Lab https://johnsonlabucdavis.wordpress.com/ | UC Davis https://www.ucdavis.edu/

**2014-2019** **Gordon Lab | Mentor, Researcher**

Research

- Graduate research, field work, wet lab, bioinformatics, and mentoring of high schoolers, undergraduates, graduate students, and non-academics.

Source: Gordon Lab https://web.stanford.edu/~dmgordon/

**2010-2014** **Kopp Lab | Researcher**

Research

- Undergraduate research assistant with Prof. Artyom Kopp in Ecology and Evolution at UC Davis, studying non-coding DNA elements in the evolution of the Drosophila foreleg sex comb.

Source: UC Davis Biology https://biology.ucdavis.edu/

**2014-2019** **Pedicab People Movers | Operator**

Pedicab

- Operated a pedicab/rickshaw at events including music festivals in California and downtown areas in Davis and San Jose.

Source: verification https://danielarifriedman.com/resume/verify.html

**2015-2016** **Stanford University | Teacher, Organizer, Graduate Teaching Assistant**

Teaching

- Graduate Teaching Assistant for undergraduate and graduate courses: General Biology: Cell and Molecular Biology (2015) and Ethics of Evolutionary Biology (2016).

Source: Stanford Biology https://biology.stanford.edu/

**2014** **UC Davis | Teacher, Organizer, Course Co-developer**

Teaching

- Student teacher and developmental biology course co-developer with Prof. Susan Keen at UC Davis.

Source: UC Davis Biology https://biology.ucdavis.edu/

## Awards and Fellowships (12)

| Year | Award | Details |
|---|---|---|
| 2020 | **NSF Postdoctoral Research Fellowship in Biology**<br>Source: NSF award DBI-2010290 https://api.nsf.gov/services/v1/awards/2010290.json | Award DBI-2010290; official award dates 2020-10-01 to 2023-09-30. |

| Year | Award | Details |
|---|---|---|
| 2014 | **Stanford Graduate Fellow, Urbanek Family Fellowship**<br>Source: Stanford Graduate Fellowship https://vpge.stanford.edu/fellowships-funding/sgf | Stanford University, 2014-2017. |

## Software (210)

| Repository | Stack | Description and Source Links |
|---|---|---|
| **docxology/template** https://github.com/docxology/template | Python | Production-grade scaffold for reproducible computational research — 10-stage DAG pipelines, ≥90% test coverage, cryptographic provenance, multi-project workspace, and agent-ready documentation · Earlier software v3.3.0 · Zenodo · · Software version 5.0.0 artifact<br><br>paper: papers/2026_AutopoieticProjectGeneration/ \| zenodo: https://doi.org/10.5281/zenodo.20584820 |
| **docxology/cognitive** https://github.com/docxology/cognitive | Python | Cognitive Ecosystem Modeling Framework — Active Inference agents with Obsidian-compatible knowledge management, bidirectional graph validation, belief updating, and network visualization |
| **docxology/codomyrmex** https://github.com/docxology/codomyrmex | Python | AI-native modular coding workspace — 100+ modules, 500+ MCP tools, 21K+ zero-mock tests, multi-agent orchestration (Claude/Gemini/GPT), PAI integration · · Citation DOI<br><br>paper: papers/2026_Codomyrmex/ \| zenodo: https://doi.org/10.5281/zenodo.21750800 |
| **docxology/MetaInformAnt** https://github.com/docxology/MetaInformAnt | Python | Meta-framework integrating computational entomology, Active Inference, and information theory for modeling ant colony cognition and beyond<br><br>paper: papers/2021_ActiveInferants/ |
| **docxology/QuadCraft** https://github.com/docxology/QuadCraft | JavaScript | Minecraft variant built on tetrahedral geometry — voxels replaced by Quadray-coordinate tetrahedra, exploring Buckminster Fuller's synergetics in an interactive 3D world |
| **docxology/CogSecSkills** https://github.com/docxology/CogSecSkills | HTML | Multiharness cognitive-security and analytic-tradecraft skill library — 100 defensive SAT/cogsec skills runnable under Claude Code, Codex, and Hermes · · Earlier archive · Citation DOI<br><br>paper: papers/2026_CogSecSkills/ \| zenodo: https://doi.org/10.5281/zenodo.21513316 |
| **docxology/timeline_generator** https://github.com/docxology/timeline_generator | TypeScript | Networked Life Encoding — interactive D3 knowledge graph of human intellectual history; 24 relationship types, Perplexity AI enrichment; seeded around R. Buckminster Fuller's network |
| **docxology/cognitive-engine** https://github.com/docxology/cognitive-engine | Python | Hybrid neuro-symbolic AI combining fractal symbolic representations with probabilistic neural models for enhanced reasoning; includes Unipixel fractal building blocks and PEFF ethical reasoning |
| **docxology/opentir** https://github.com/docxology/opentir | Python | Repository analysis and offline documentation toolkit; v1.1.0 repairs packaging, configuration and reproducible generation. Release verification used local Git/HTTP fixtures; live organization-wide discovery was not rerun |
| **docxology/ActiveInferAnts** https://github.com/docxology/ActiveInferAnts | Python | Active Inference for ants — multi-language implementations (Python) for modeling ant-colony cognition as Bayesian agents minimizing free energy<br><br>paper: papers/2021_ActiveInferants/ |
| **docxology/Markov_Blanket_Detection** https://github.com/docxology/Markov_Blanket_Detection | Python | Dynamic Markov Blanket Detection (DMBD) — PyTorch-accelerated framework for identifying causal relationships in complex systems; static and temporal modes with cognitive-structure labeling |
| **docxology/literature** https://github.com/docxology/literature | Python | Literature collection and analysis tools for structured ingestion, annotation, and exploration of scientific publications |
| **docxology/FORMINDEX** https://github.com/docxology/FORMINDEX | Rich Text Format | Analysis and tooling around FORMIS, the world's largest ant-literature database; bibliometric mining and structured index generation |
| **docxology/crescent-city** https://github.com/docxology/crescent-city | TypeScript | End-to-end pipeline for ingesting, parsing, and querying the Crescent City, CA municipal code; TypeScript-based legal-text processing |
| **docxology/QuadMath** https://github.com/docxology/QuadMath | TeX | Mathematical exposition of Quadray coordinate systems (4-vector tetrahedral coordinates); LaTeX documentation and computation library |
| **docxology/active_inference** https://github.com/docxology/active_inference | Python | Active Inference for, with, and by Generative AI — Python implementations of free-energy-minimizing agents integrated with modern AI tooling<br><br>paper: papers/2020_BehaviorEngineering/ |
| **docxology/AGEINT** https://github.com/docxology/AGEINT | HTML | Agentic Intelligence curriculum — modular educational scaffold for teaching bounded AI-agent support and synthetic analytic tradecraft · · Citation DOI<br><br>paper: papers/2026_AGEINT/ \| zenodo: https://doi.org/10.5281/zenodo.20732274 |
| **docxology/template_autoscientists** https://github.com/docxology/template_autoscientists | HTML | AutoScientists deterministic multi-agent scientific-discovery coordination harness · · Zenodo<br><br>paper: papers/2026_DeterministicTestbedSelf/ \| zenodo: https://doi.org/10.5281/zenodo.20533669 |

| Repository | Stack | Description and Source Links |
|---|---|---|
| **docxology/ivm-xyz** https://github.com/docxology/ivm-xyz | Python | Python library for 3D and 4D Quadray/IVM (Isotropic Vector Matrix) geometry — coordinate conversion, volume calculations, and polyhedral operations |
| **docxology/AgenticMesh** https://github.com/docxology/AgenticMesh | Python | Active Inference & Agentic Mesh — modular Python infrastructure for building agentic systems using free-energy-minimizing Active Inference principles |
| **docxology/curriculum** https://github.com/docxology/curriculum | HTML | Curriculum development framework for interdisciplinary education in Active Inference, biology, and computational science |
| **docxology/lean_niche** https://github.com/docxology/lean_niche | Python | Lean/minimal niche-construction modeling — formal computational representations of ecological niche dynamics |
| **docxology/obsidian-construction-from-text** https://github.com/docxology/obsidian-construction-from-text | Python | Automated Obsidian vault construction from unstructured text — NLP pipelines to generate bidirectionally-linked knowledge graphs |
| **docxology/qr_live_protocol** https://github.com/docxology/qr_live_protocol | Python | QR code-based live protocol system for real-time data exchange and interactive session management |
| **docxology/ultralink-docx** https://github.com/docxology/ultralink-docx | HTML | UltraLink document format tooling — linking, rendering, and transformation utilities for rich hyperlinked documents |
| **docxology/steganographer** https://github.com/docxology/steganographer | Rust | High-performance Rust tool for embedding BLAKE3+Ed25519 cryptographic signatures and visible watermarks into live video/audio via LSB steganography; four Rust crates, 484 tests, GStreamer integration |
| **docxology/itrace** https://github.com/docxology/itrace | Python | Verification-first webcam eye-movement analysis; package v0.5.0 with a separately corrected 2026-10-16 manuscript, without reference-device validation · · Citation DOI · Software archive<br><br>paper: papers/2026_ITrace/ \| zenodo: https://doi.org/10.5281/zenodo.20614908 |
| **docxology/biology_textbook** https://github.com/docxology/biology_textbook | Python | Open generative biology textbook — Markdown source, tested Python modules, programmatic figures; archived at Zenodo artifact · Citation DOI<br><br>paper: papers/2026_BiologyTextbook/ \| zenodo: https://doi.org/10.5281/zenodo.20286477 |
| **docxology/enactive_inference_model** https://github.com/docxology/enactive_inference_model | Python | Three-level hierarchical enactive inference model of mental action — focused-attention meditation with expert/novice profiles; reproducible simulations and figures · · Reviewed research dependency; GitHub currently marks this public repository as an archived fork<br><br>paper: papers/2025_Thoughtseeds/ |
| **docxology/snake** https://github.com/docxology/snake | Python | Classic snake game implemented in Python — used for testing multi-agent and reinforcement learning algorithms |
| **docxology/SynthOBS** https://github.com/docxology/SynthOBS | Python | Golden-ratio OBS Studio broadcast console and FractiSynth transducer — Python reference engine, native `libobs` plugin, and `obspython` bridge driven by fail-closed solar telemetry |
| **docxology/template_newspaper** https://github.com/docxology/template_newspaper | Python | The Triplicate data-driven large-format newspaper layout engine · · Zenodo<br><br>paper: papers/2026_Triplicate/ \| zenodo: https://doi.org/10.5281/zenodo.20533675 |
| **docxology/ntqr_llm** https://github.com/docxology/ntqr_llm | Python | Algebraic NTQR evaluation study recovering LLM-persona accuracies from unlabeled votes · · Zenodo<br><br>paper: papers/2026_RecoveringLLMPersona/ \| zenodo: https://doi.org/10.5281/zenodo.20498699 |
| **docxology/coasys** https://github.com/docxology/coasys | Python | Integration workspace aggregating and exercising the coasys (AD4M) agent-centric social-layer repositories |
| **docxology/template_madlib** https://github.com/docxology/template_madlib | Python | Deterministic token-injection exemplar for conditional IMRAD manuscripts — reproducible madlib-style variable substitution for scientific writing · · Citation DOI<br><br>paper: papers/2026_TemplateMadlib/ \| zenodo: https://doi.org/10.5281/zenodo.20786638 |
| **docxology/active_torchference** https://github.com/docxology/active_torchference | Python | PyTorch-based Active Inference implementations — GPU-accelerated variational inference and free energy minimization |
| **docxology/ant-pheromone** https://github.com/docxology/ant-pheromone | Python | Computational simulation of ant pheromone trail dynamics and stigmergic communication |
| **docxology/ant_stack** https://github.com/docxology/ant_stack | Python | The Ant Stack — layered computational model of collective ant-colony intelligence<br><br>paper: papers/2025_AntStack/ |

| Repository | Stack | Description and Source Links |
|---|---|---|
| **docxology/cohereants**<br>https://github.com/docxology/cohereants | Python | Computational research on insect infrared sensing and olfaction modeling · · Zenodo · Zenodo<br><br>paper: papers/2026_WhenDoBugs/ \| zenodo: https://doi.org/10.5281/zenodo.20450970 |
| **docxology/ento_linguistics**<br>https://github.com/docxology/ento_linguistics | Python | Ento-Linguistics corpus pipeline — term extraction, terminology networks, semantic entropy, CACE scoring · · Zenodo<br><br>paper: papers/2026_EntoLinguistics/ \| zenodo: https://doi.org/10.5281/zenodo.19574117 |
| **docxology/cognitive_case_diagrams**<br>https://github.com/docxology/cognitive_case_diagrams | Python | Compositional linguistic case for cognitive modeling — categorical case systems, DisCoCat/DisCoCirc diagrams, tests and figures for the Active Inference Journal manuscript · · Citation DOI<br><br>paper: papers/2026_CognitiveCaseDiagrams/ \| zenodo: https://doi.org/10.5281/zenodo.19695259 |
| **docxology/Autonomous-Drone-Navigation-in-AirSim-With-Active-Inference**<br>https://github.com/docxology/Autonomous-Drone-Navigation-in-AirSim-With-Active-Inference | Julia | Active Inference-driven autonomous drone navigation in Microsoft AirSim simulation environment |
| **docxology/biol-1**<br>https://github.com/docxology/biol-1 | HTML | BIOL-1: General Biology course materials — College of the Redwoods; lectures, labs, and interactive HTML content |
| **docxology/biol-8**<br>https://github.com/docxology/biol-8 | HTML | BIOL-8: Human Biology course materials — College of the Redwoods; lectures, labs, and interactive HTML content |
| **docxology/cascadia**<br>https://github.com/docxology/cascadia | Python | Cascadia bioregion modeling and data analysis tools |
| **docxology/course**<br>https://github.com/docxology/course | Python | Course materials framework for structured interdisciplinary learning modules |
| **docxology/EvoJump**<br>https://github.com/docxology/EvoJump | Python | Comprehensive Framework for Evolutionary Ontogenetic Analysis — modeling developmental trajectories and evolutionary dynamics · Zenodo<br><br>paper: papers/2025_EvoJump/ \| zenodo: https://doi.org/10.5281/zenodo.22664675 |
| **docxology/flick**<br>https://github.com/docxology/flick | Python | Lightweight Python tooling for rapid data flicking and processing pipelines |
| **docxology/fuller-obsidian**<br>https://github.com/docxology/fuller-obsidian | unspecified | Obsidian vault dedicated to R. Buckminster Fuller's ideas — synergetics, geodesics, and design science · Historical public reference: anonymous GitHub returned 404 on 2026-11-04; current contents and visibility are unverified |
| **docxology/godel_ivm**<br>https://github.com/docxology/godel_ivm | Python | Gödel numbering meets the IVM (Isotropic Vector Matrix) — formal encoding of geometric objects as prime products |
| **docxology/goference**<br>https://github.com/docxology/goference | Go | Active Goference — production-ready Go framework for Active Inference autonomous agents; genuine variational inference, free energy minimization, POMDP policy planning via gonum |
| **docxology/hhs-opendata**<br>https://github.com/docxology/hhs-opendata | Python | Analysis of HHS (Department of Health and Human Services) open data — policy analytics and public-health data pipelines |
| **docxology/grateful_data**<br>https://github.com/docxology/grateful_data | Python | The Music Never Stopped citation-bound Grateful Dead data compendium · · Zenodo · Zenodo<br><br>paper: papers/2026_MusicNeverStopped/ \| zenodo: https://doi.org/10.5281/zenodo.20482026 |
| **docxology/infra-calc**<br>https://github.com/docxology/infra-calc | JavaScript | Infrastructure calculator for estimating resource requirements and costs in multi-agent and AI systems |
| **docxology/markdown_decision_process**<br>https://github.com/docxology/markdown_decision_process | Python | Framework for Probabilistic Document Analysis — Markov Decision Process over Markdown artifacts for structured document reasoning<br><br>paper: papers/2025_MarkdownDecisionProcess/ |
| **docxology/mdkv**<br>https://github.com/docxology/mdkv | Python | MKV-like key-value format and methods for Markdown — structured metadata embedding in plain-text documents<br><br>paper: papers/2025_MDKV/ |
| **docxology/p3if**<br>https://github.com/docxology/p3if | HTML | Properties, Processes, and Perspectives Inter-Framework (P3IF) — multiplexing interdisciplinary requirements frameworks to manage information risk and foster cognitive security<br><br>paper: papers/2023_P3IF/ |

| Repository | Stack | Description and Source Links |
|---|---|---|
| **docxology/service**<br>https://github.com/docxology/service | Python | Service-layer infrastructure and API tooling for Python-based research applications |
| **docxology/template_textbook**<br>https://github.com/docxology/template_textbook | HTML | Modular fillable scaffold for book-length technical works · · Zenodo<br>paper: papers/2026_TemplateTextbook/ \| zenodo: https://doi.org/10.5281/zenodo.20533125 |
| **docxology/blake_jiang**<br>https://github.com/docxology/blake_jiang | Python | William Blake, Professor Jiang, and the Architecture of Intelligence — AI-augmented scholarly response to Game Theory #24 with Blake, Jiang, and Active Inference framing<br>paper: papers/2026_BlakeJiang/ |
| **docxology/symergetics**<br>https://github.com/docxology/symergetics | Python | Symbolic Synergetics — computer algebra and formal symbolic systems for Buckminster Fuller's synergetics mathematics |
| **docxology/transformer**<br>https://github.com/docxology/transformer | Python | Transformer architecture explorations — attention mechanisms and architectural variants for Active Inference research |
| **docxology/daf-jev**<br>https://github.com/docxology/daf-jev | Python | Modular, composable Python client and decision toolkit for the TypeSafe Jev (System One) API — typed question primitives (noul/choice/score), concurrent batch evaluation, composition patterns, calibration statistics, CLI, and MCP server · Zenodo · · Release 2026-11-04<br>paper: papers/2026_JevPractice/ \| zenodo: https://doi.org/10.5281/zenodo.22816187 |
| **docxology/realizing_emptiness**<br>https://github.com/docxology/realizing_emptiness | Python | GNN-declared categorical and finite-model operational surrogates; v3.0.0 retains source-bound mathematical controls without physical quantum, clinical or practice-efficacy validation · Citation DOI · Software archive<br>paper: papers/2026_RealizingEmptiness/ \| zenodo: https://doi.org/10.5281/zenodo.20834846 |
| **docxology/template_active_inference**<br>https://github.com/docxology/template_active_inference | Python | Active inference multi-track exemplar releases · Zenodo<br>paper: papers/2026_ActiveInferenceMulti/ \| zenodo: https://doi.org/10.5281/zenodo.20417021 |
| **docxology/entofile**<br>https://github.com/docxology/entofile | Python | ENTO (ENcrypted, Typed, Omnitrack): a flat-ZIP authenticated container format for multimodal research data, with per-track AES-256-GCM, graded observability, and hash-chained proofs. Reference implementation. · Zenodo<br>paper: papers/2026_ENTO/ \| zenodo: https://doi.org/10.5281/zenodo.20396328 |
| **docxology/ntqr_allotment**<br>https://github.com/docxology/ntqr_allotment | Python | Sortition Upstream of NTQR: how panel formation and size shape ground-truth-free evaluation (deterministic synthetic instrument + single-model Gemma postdoctoral-review companion) · Zenodo<br>paper: papers/2026_SortitionUpstreamNTQR/ \| zenodo: https://doi.org/10.5281/zenodo.21083779 |
| **docxology/blake**<br>https://github.com/docxology/blake | Python | Blake source/copy evidence, corpus custody and retrieval methods — manuscript 0.5.0 with software 0.7.0; the saved analytical producer remains 0.2.0rc1 · Citation DOI · Manuscript version 0.5.0 artifact · Software archive<br>paper: papers/2026_MappingWilliamBlake/ \| zenodo: https://doi.org/10.5281/zenodo.21047573 |
| **docxology/active-inference-pocket-lab**<br>https://github.com/docxology/active-inference-pocket-lab | JavaScript | Active Inference Pocket Lab — portable simulation and learning environment for Active Inference experiments |
| **docxology/sunspot**<br>https://github.com/docxology/sunspot | Python | Correlating Github activity with Solar activity |
| **docxology/template_data_descriptor**<br>https://github.com/docxology/template_data_descriptor | HTML | Data Descriptor Template: schema, file inventory, provenance, and release-readiness contract for dataset papers. Exemplar from the docxology/template research monorepo. |
| **docxology/template_methods_paper**<br>https://github.com/docxology/template_methods_paper | Python | A Domain Language for Specifying Controlled Methods — public exemplar from docxology/template · Zenodo<br>paper: papers/2026_DomainLanguageSpecifying/ \| zenodo: https://doi.org/10.5281/zenodo.21086548 |
| **docxology/template_search_project**<br>https://github.com/docxology/template_search_project | Python | Private project mirror for archive/template_search_project in docxology/projects. |
| **docxology/Digi-PPPiP**<br>https://github.com/docxology/Digi-PPPiP | TeX | DigiPPPiP — Digital Partner Pen Play in Parallel: a composable, fully-tested computational companion for remote, semisynchronous, and asynchronous dyadic drawing · · Zenodo<br>paper: papers/2026_DigiPPPiP/ \| zenodo: https://doi.org/10.5281/zenodo.21815704 |
| **docxology/BeeStack**<br>https://github.com/docxology/BeeStack | Python | Evidence-typed scaffold for whole-colony honeybee simulation · · Zenodo<br>paper: papers/2026_BeeStack/ \| zenodo: https://doi.org/10.5281/zenodo.20420556 |

| Repository | Stack | Description and Source Links |
|---|---|---|
| **docxology/thalia** https://github.com/docxology/thalia | Python | THALIA: Typed Harness with Analytical Lexical-Integrated Architecture — a typed agentic harness for reproducible long-context memory experiments · · Zenodo paper: papers/2026_THALIA/ \| zenodo: https://doi.org/10.5281/zenodo.21763244 |
| **docxology/millennium_audit** https://github.com/docxology/millennium_audit | Python | Forensic audit of the MillenniumLean Clay-proof package (AIX Global): kernel claims reproduced, none of the six Clay Millennium Problems resolved by the theorem types · Citation DOI paper: papers/2026_MillenniumAudit/ \| zenodo: https://doi.org/10.5281/zenodo.22243472 |
| **docxology/cognitive_integrity** https://github.com/docxology/cognitive_integrity | Python | Cognitive Integrity Framework (CIF) — formal security architecture for multiagent systems · paper: papers/2026_CognitiveIntegrity/ |
| **docxology/EntoLaw** https://github.com/docxology/EntoLaw | HTML | A source-anchored, reproducible field map of entomological law · Zenodo paper: papers/2026_EntomologicalLaw/ \| zenodo: https://doi.org/10.5281/zenodo.21137276 |
| **docxology/DuckRabbit** https://github.com/docxology/DuckRabbit | Python | Typed, deterministic multimodal illusion generator — visual, auditory, temporal, and audio-visual stimuli with scholarly evidence and publication outputs · Zenodo paper: papers/2026_DuckRabbit/ \| zenodo: https://doi.org/10.5281/zenodo.21419693 |
| **docxology/alphacogant** https://github.com/docxology/alphacogant | Python | AlphaCOGANT: Recursive Corporate Self-Improvement as Active Inference — GNN-via-COGANT model of the AlphaFund Economic World Model · Zenodo paper: papers/2026_AlphaCOGANT/ \| zenodo: https://doi.org/10.5281/zenodo.20976824 |
| **docxology/democreate** https://github.com/docxology/democreate | Python | DemoCreate: declarative, deterministic audio-visual demo generation for software packages and research papers. · Zenodo paper: papers/2026_DemoCreate/ \| zenodo: https://doi.org/10.5281/zenodo.20693216 |
| **docxology/dotscope** https://github.com/docxology/dotscope | Python | The Physics Engine for AI Coding Agents. |
| **docxology/template-pitch-deck** https://github.com/docxology/template-pitch-deck | Python | Reproducible, validated short/medium/long PDF+PPTX pitch-deck generation — a public exemplar extracted from docxology/template · Zenodo paper: papers/2026_TemplatePitchDeck/ \| zenodo: https://doi.org/10.5281/zenodo.21281509 |
| **docxology/template_autopoiesis** https://github.com/docxology/template_autopoiesis | Python | Autopoietic Project Generation: a combinatoric grammar for deterministic runnable project synthesis (DOI: 10.5281/zenodo.21227869) · Zenodo paper: papers/2026_AutopoieticProjectGeneration/ \| zenodo: https://doi.org/10.5281/zenodo.21227869 |

## Conferences, Posters, Seminars, Workshops (17)

**2025** **Inference about Foraging and Foraging as Inference | Queens College, CUNY, Biology**

- Talk

Source: Queens College Biology https://www.qc.cuny.edu/academics/bio/

**2025** **Systems Processes, Active Inference, and Beyond | Enduring Patterns, Emerging Futures: Celebrating Dr. Len Troncale**

- Talk 2025-09-17

Source: Zenodo presentation https://doi.org/10.5281/zenodo.17138223

**2024** **...And Eternity in an hour of Systems Science Education and Knowledge Engineering | ISSS 2024**

- Workshop

Source: ISSS https://isss.org/world/

**2024** **Funding AI public goods and keeping them public | Funding the Commons**

- Panel

Source: Funding the Commons https://fundingthecommons.io/

**2024** **Intelligence in the Age of LLMs | European Identity and Cloud Conference 2024**

- Panel

Source: KuppingerCole EIC speaker https://www.kuppingercole.com/events/eic2024/speakers/3516

**2022** **Tissue-specific gene expression meta-analysis in honey bees (Apis mellifera) | Entomology Society of America, Pacific Branch**

- Talk 2022-04-10

Source: Entomological Society of America https://entsoc.org/events

**2021** **Thinking like a State: Active inference and the deep roots of complex societies | Cognitio 2021**

- Talk Avel Guenin-Carlut, Daniel Friedman, and Virginia Bleu Knight.

Source: Cognitio https://cognitio.uqam.ca/

**2021** **Introducing Active Inference as An Integrative Principle in The Study of Collective Intelligence | ACM-CI 2021**

- Talk Avel Guenin-Carlut and Daniel Friedman.

Source: ACM Collective Intelligence https://ci.acm.org/

**2020** **Active Inference for Communicating Systems | IIBM, Chile**

- Talk Invited online seminar. 2020-11-03

Source: IIBM https://www.iibm.cl/

**2019** **Invited seminar, Department of Animal Behavior, University of California, Davis | Essig Brunch Seminar Series**

- Talk 2019-04-05

Source: UC Davis Entomology https://entomology.ucdavis.edu/

**2018** **Invited seminar, SUMS-RAS | Stanford University Mass Spectrometry Research Symposium**

- Talk 2018-10-04

Source: Stanford Mass Spectrometry https://mass-spec.stanford.edu/

**2018** **Invited seminar, University of California, Berkeley | Essig Entomology Brunch**

- Talk 2018-02-06

Source: Essig Museum https://essig.berkeley.edu/

**2017** **The role of dopamine in the regulation of foraging in the red harvester ant | Entomology 2017**

- Poster

Source: Entomological Society of America https://entsoc.org/events/annual-meeting

**2017** **Quantitative LC-MS/MS analysis of dopamine in single ant brain samples | ASMS 2017**

- Poster KM Krasinska, DA Friedman, DM Gordon, AS Chien.

Source: ASMS Annual Conference https://www.asms.org/conferences/annual-conference

**2015** **Transcriptomic analysis of the regulation of foraging in harvester ants | Biology and Genetics of Social Insects, CSHL 2015**

- Poster DA Friedman, A Pilko, DM Gordon.

Source: Cold Spring Harbor Meetings https://meetings.cshl.edu/

**2014** **Evolution of sex comb enhancers in the HOX gene Scr | Drosophila Research Conference 2014**

- Poster DA Friedman, T Orenic, C McCullough, E Eksi, OY Barmina, A Kopp.

Source: GSA Drosophila Conference https://genetics-gsa.org/drosophila/

**2012** **Visualizing the Integration of Sensory Neurons into a Sex-Specific Central Nervous System Circuit in 3-D | UC Davis Undergraduate Research Conference**

- Talk DA Friedman.

Source: UC Davis Undergraduate Research Center https://urc.ucdavis.edu/

## Science Engagement, Outreach, Quotes, Articles (29)

**2026** **S3E10 The FEP: A Tool for Understanding and Modelling Complex Systems**

- Video conversation on another channel

Source: BathmikeC podcast https://bathmikec.podbean.com/e/s3e10-the-fep-a-tool-for-understanding-and-modelling-complex-systems/

**2025** **(DIA 1/SESSAO 1) Lancamento do Livro: As Colonias de Formigas Sao Conscientes?**

- Video conversation on another channel

Source: YouTube https://www.youtube.com/watch?v=BJ-PAt3cqf4

**2024** **From Ants to Active Inference with Daniel Ari Friedman**

- Video conversation on another channel | Love and Philosophy, Andrea Hiott

Source: YouTube https://www.youtube.com/watch?v=x_VPw1K55BM

**2024** **Building Smarter AI: Active Inference and Nested Models**

- Video conversation on another channel | Bagaev, de Vries, Friedman, Pashea.

Source: YouTube https://youtu.be/u3w24FtAsKw

**2024** **Interaction. In Search of Daniel Friedman's Deepest Value**

- Video conversation on another channel | Math4Wisdom

Source: YouTube https://www.youtube.com/watch?v=T05uLRbcloE

**2023** **Active Inference and The Free Energy Principle with Daniel Friedman**

- Video conversation on another channel | No Way Out podcast

Source: YouTube https://www.youtube.com/watch?v=pYleeDb-B5E

**2023** **Episode 6: Daniel Friedman - Active Inference Institute - What is Active Inference?**

- Video conversation on another channel | Denise Holt

Source: YouTube https://www.youtube.com/watch?v=ZyFqRBp1KE0

**2022** **Artist of Curio Cards 24-26 Shares Incredible Journey through Art and Science**

- Video conversation on another channel | Jake Gallen

Source: YouTube https://youtu.be/X_F2YFIiUnY

**2022** **What Ant Behavior Reveals About Complexity Science with Daniel Friedman**

- Video conversation on another channel | Making Sense of Complexity

Source: YouTube https://youtu.be/lQr98-sG8r0 | YouTube episode https://www.youtube.com/watch?v=4qsyV38qfTw

**2022** **What is Active Inference?...with Daniel Friedman**

- Video conversation on another channel | Inner Sense

Source: YouTube https://youtu.be/yHnm-zMqLvY

**2022** **Great discussion with Daniel, OG Curio Card artist, cards 24, 25, 26**

- Video conversation on another channel | ZeroG

## Professional Participation, Engagement, and Service (27)

**2022-2024** **ISSS | Board of Directors**

- Vice-President for Communication and Systems Education on the International Society for the Systems Sciences Board.

Source: ISSS https://www.isss.org/home/

**2021-2023** **JoVE | Academia**

- Co-editor, Field and Laboratory Methods for Modern Entomology.

Source: JoVE methods collection https://www.jove.com/methods-collections/567/field-and-laboratory-methods-for-modern-entomology

**2021** **Cybernetics Society | Membership**

- Member (MCybS), Cybernetics Society.

Source: Cybernetics Society https://cybsoc.org/

**2020-ongoing** **IPA | Membership**

- Information Professional Association.

Source: IPA https://information-professionals.org/

**2020-ongoing** **Active Inference Institute | Community**

- Active Inference Institute co-founder.

Source: Active Inference Institute https://www.activeinference.institute/

**2020-2023** **Davis Complexity Group | Community**

- Davis Complexity Group.

Source: verification https://danielarifriedman.com/resume/verify.html

**2019-2024** **Complexity Adventures | Community**

- Complexity Adventures co-founder.

Source: Complexity Adventures https://www.complexityadventures.com/

**2018-2021** **ALIUS | Membership**

- ALIUS Research Group contributor, editor, and co-organizer.

Source: ALIUS Research Group https://www.aliusresearch.org/

**2018-2019** **Wonderfest | Community**

- Wonderfest Science Envoy; science outreach and community training.

Source: Wonderfest https://wonderfest.org/

**2017-2021** **ESA | Membership**

- Entomological Society of America.

Source: Entomological Society of America https://www.entsoc.org/

**2017-2019** **Stanford | Academia**

- NeuroChoice group, Stanford Neurosciences Institute.

Source: NeuroChoice https://neurochoice.stanford.edu/purpose

**2017-2018** **Stanford | Membership**

- Graduate student member of Arts Committee for Stanford Biology department.

Source: Stanford Biology https://biology.stanford.edu/

**2016-2019** **Stanford Complexity Group | Community**

- Stanford Complexity Group.

Source: Stanford https://www.stanford.edu/ | verification https://danielarifriedman.com/resume/verify.html

**2016** **Stanford | Community**

- Science Teaching Through Art (STAR) outreach program; poster presentations and conversations about ants at local middle and high schools.

Source: Stanford https://www.stanford.edu/

**2015** **Santa Fe Institute | Workshop**

- Santa Fe Institute Complex Systems Summer School, one-month residential program.

Source: Santa Fe Institute CSSS https://www.santafe.edu/engage/learn/programs/sfi-complex-systems-summer-school

**2014-2018** **Gordon Lab | Field work**

- Five summers of ant fieldwork during PhD under Prof. Deborah Gordon at Southwestern Research Station, Arizona.

Source: Southwestern Research Station https://www.amnh.org/research/southwestern-research-station

**2014** **Stanford | Field work**

- Summer field ecology class with Stanford Prof. Rodolfo Dirzo at Las Tuxtlas tropical research station, Mexico.

Source: Los Tuxtlas Biological Station https://www.ib.unam.mx/ib/unidades-investigacion/estacion-los-tuxtlas/

**2014** **NIMBioS | Workshop**

- Summer workshop on Evolutionary and Quantitative Genetics at NIMBioS, University of Tennessee, Knoxville.

Source: NIMBioS https://www.nimbios.org/tutorials/TT_egg

**2014** **Science | Field work**

- Drosophila work with Dr. Michael Lang in Arizona.

Source: Drosophila Evolution https://droseu.net/drosophila-evolution/

**2014-ongoing** **Science | Academia**

- Invited peer reviewer for 1-10 articles per year across different journals.

Source: Science https://www.science.org/

**2014-2023** **IUSSI | Membership**

- International Union for the Study of Social Insects.

Source: IUSSI https://iussi.org/

**2014-2017** **Stanford | Community**

- Stanford Center for Evolutionary and Human Genomics outreach programs, including teaching genetics in local middle schools and hosting high school students at Stanford.

Source: Stanford Center for Evolution and Human Genomics https://cehg.stanford.edu/

**2014-2017** **Stanford | Community**

- Stanford Bio Core Explorations hands-on lecture/workshop for undergraduates: Art and Biology.

Source: Stanford Biology https://biology.stanford.edu/

**2013** **UC Davis | Community**

- Science mentoring at Woodland High School.

Source: Woodland High School https://whs.wjusd.org/

**2012** **UC Davis | Community**

- Drums and percussion for UC Davis production of RENT.

Source: UC Davis https://www.ucdavis.edu/

**2012-2013** **UC Davis | Community**

- Volunteer in emergency room at hospital in Sacramento, four hours per week for six months.

Source: UC Davis Health https://health.ucdavis.edu/

**2011-2014** **UC Davis | Community**

- Chess Club at UC Davis President (2012-2014), organizing free outdoor chess at the farmer's market twice weekly for two years.

Source: UC Davis Campus Recreation https://campusrecreation.ucdavis.edu/

## Art Portfolio and Uses (14)

**All** **Art portfolio**

- Posting drawings to an online portfolio since 2009.

Source: Flickr https://flickr.com/photos/daniel_friedman/

**2021** **Curio Cards**

- A full Curio Cards set sold at Christie's New York on September 30, 2021 for 393 ETH ($1,202,108).

Source: Christie's Curio Cards lot https://www.christies.com/lot/lot-6337619

**2021** **Curio Cards**

- Curio Cards collection stored in the Arctic World Archive with art and provenance data intended for long-duration preservation.

Source: Top Dog Beach Club https://topdogbeachclub.com/non-fungible-vault/

**2021** **Curio Cards**

- Public auction and market history for Curio Cards includes major 2021 sales; verify venue-specific claims before reusing exact auction-house wording.
